

GLOBAL  
MATH WEEK  
OCT 10-16

## The Global Math Project and Math Communities teams proudly bring to the world SIX online student lessons

GMP co-founder Dr. James Tanton will present live, 45-minute, online lessons on GMP's favorite topic, *Adventures in Exploding Dots*. See and experience what millions across the globe regularly call "mind blowing." It's the stunning story of place-value presented in astonishing and far-reaching new light.
